EMMANUEL CHINONYEREM ADIELE

Address: Aba, Abia State, Nigeria • 450001
Phone: +234 911 045 7110 • **Email:** emmanueladiele6@gmail.com
Portfolio: *https://emmanuel-adiele.netlify.app* • **LinkedIn***:* *https://linkedin.com/in/emmanuel-adiele-52251117a*

PROFESSIONAL SUMMARY

Technically strong and execution-focused Technology Professional with practical experience in software engineering, IT support, network troubleshooting, cloud deployment, and digital operations across healthcare, education, and technology sectors. Proven ability to build scalable applications, integrate APIs and payment systems, manage databases, automate workflows, and deploy stable production environments. Skilled in cross-functional collaboration, system optimization, and delivering reliable technical solutions in fast-moving operational settings.

CORE COMPETENCIES

Software Development • API Integration • Network & IT Support • CI/CD & DevOps • Database Management • Linux Administration • System Optimization • Technical Documentation • Digital Operations • Agile/Scrum

---

TECHNICAL SKILLS

Programming and Scripting

JavaScript, TypeScript, Python (basic), Bash/Shell, SQL

Frontend Development

React, Next.js, Tailwind CSS, HTML5/CSS3, SSR/SSG, State Management, UI Libraries (ShadCN, Material, Chakra), Responsive Design

Backend & APIs

Node.js, Express.js, tRPC, REST APIs, JWT/OAuth2, Swagger/OpenAPI, Microservices

Databases & Storage

MySQL, PostgreSQL, MongoDB, Redis, Prisma, Drizzle ORM, Database tuning & backups

DevOps & Deployment

Vercel, Netlify, Railway, GitHub Actions (CI/CD), PM2, Docker, Nginx, Linux (Ubuntu), Cloudflare, Webpack, Turbopack, Package Managers (npm/yarn/pnpm/bun)

Cloud & Infrastructure

Microsoft 365 Admin (Identity, SharePoint/OneDrive, Policies), Azure (VMs, App Services, AD), AWS (EC2, S3, IAM), Firebase & Supabase (Auth, DB, Storage, Functions)

Testing & QA

Jest, React Testing Library, Postman, Thunder Client, Load Testing (k6/JMeter)

Networking & IT Support

TCP/IP, DHCP, DNS, Routers/Switches, Firewalls, Wireshark, CCTV, LAN Troubleshooting, Hardware Diagnostics

Security Tools

Nmap, OpenVAS, SSL/TLS, System Hardening, RBAC

Digital Operations & SEO

Google Analytics, Search Console, Technical SEO

Documentation & Collaboration

Notion, Confluence, Markdown, Jira, Trello, Slack, Microsoft Teams, Google Workspace

CMS

WordPress, Ghost

PROFESSIONAL EXPERIENCE

IT Technical Support and Network Technician – Health Stack Healthcare Software Company

Abia State Specialist Hospital, Umuahia, Nigeria
Oct 2024 – Present
• Provided IT support across hospital departments, resolving software, hardware, and network issues, increasing issue-resolution efficiency by 35%.
• Managed routers, switches, wireless access points, and internal networks, reducing downtime by 25%.
• Audited network performance and conducted troubleshooting, improving detection and mitigation speed by 30%.
• Trained healthcare staff on HealthStack system, boosting digital adoption by 40%.
• Streamlined patient-care digital workflows, improving data accuracy and reporting turnaround by 20%.

Lead Backend Developer – Luxela

Sept 2024 – Present
• Engineered core backend architecture for the Luxela fashion marketplace, increasing API reliability and service stability by 40%.
• Engineered and scaled RESTful APIs and microservices supporting designer onboarding, product listing, and order flows, improving efficiency by 35%.
• Refined server performance, caching, and database queries, reducing latency by 45%.
• Implemented secure payment workflows, increasing transaction consistency and reducing failures by 25%.
• Directed backend CI/CD pipelines and cloud deployments, improving deployment success and rollback safety by 30%.

Manager & Developer – Innovation Growth Hub (IGHub)

Innovation Growth Hub (IGHub), Umuahia, Nigeria
Dec 2024 – Jun 2025
• Oversaw internal projects and coordinated cross-department activities, improving delivery timeliness by 25%.
• Designed workflow automation processes, reducing manual workload and processing time by 35%.
• Facilitated hands-on training sessions for developers and entrepreneurs, raising engagement and skill adoption by 40%.

Software Developer – Enermics Consulting Limited

Enermics Consulting Limited, Ikeja, Lagos State, Nigeria
Nov 2023 – May 2024
• Built web applications using JavaScript/TypeScript stacks, improving stability by 25%.
• Integrated APIs and payment gateways, increasing transaction reliability by 30%.
• Applied secure coding practices and enhanced performance, boosting application speed by 35%.

Computer Hardware & Software Engineer – Nazy Computers

Aba, Abia State, Nigeria
Jun 2018 – Dec 2018
• Diagnosed and repaired hardware faults, cutting repair turnaround times by 30%.
• Installed and deployed operating systems, drivers, and software, improving setup efficiency by 25%.
• **Improved device responsiveness** through system tuning, formatting, and malware remediation, enhancing performance by 40%.

Teacher (General Studies) – Basic Noble Giants' Schools

Basic Noble Giants' Schools, Aba, Abia State, Nigeria
Jan 2017 – Jul 2018
• Conducted structured lessons and interactive activities, raising student comprehension and engagement by 25%.
• Led debates and group projects, boosting participation by 30%.
• Mentored students needing extra guidance, improving performance by 35%.

Computer Operator / IT Support – Patsy Elite School and Brite's Computer Institute

Aba, Abia State, Nigeria
Jun 2016 – Dec 2016
• Delivered IT and lab support, configuring computers, printers, and networks, improving resolution efficiency by 30% and ensuring lab systems remained operational with minimal interruptions.
• Produced and formatted school and training documents, improving output efficiency by 40%.
• Authored user guides and supervised routine maintenance, minimizing equipment downtime and increasing lab reliability.

EDUCATION

B.Eng., Computer Engineering

Michael Okpara University of Agriculture, Umudike (MOUAU)
Sept 2018 – Oct 2024

CERTIFICATIONS

• Computer Components & Peripherals for IT Technicians – LinkedIn, May 2020
• Project Management Essentials – PMI, Jun 2022
• Jobberman Soft Skills Certificate, Aug 2022
• Certificate of Membership – NACOS, Jan 2023
• Diploma in Backend Engineering – LearnTechPath, Dec 2025
